Moon Rabbit Activity Sheet

The moon has been an inspiration for stories and artwork all over the world. It is a magical light that watches over all of us, no matter where we are.

Before Little Rabbit had met her friend, she looked up at the moon and made a wish that sat on the moon beside the dreams and wishes of rabbits from all over the world, shining brightly together like a beautiful patterned quilt.

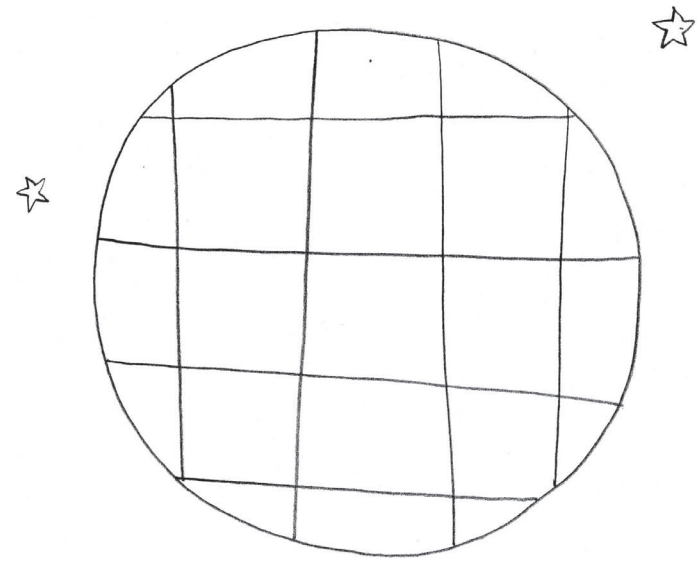

Each night the moon changes as wishes come true, just like Little Rabbit's did. And I'm sure if you make a wish, yours will too. This may take some time, so be patient, read a book, play a game or go for a walk in the park and sit under a blossom tree.

Sheet 1

How does Little Rabbit feel? Can you guess what she is wishing for? Help Little Rabbit feel better by drawing her ears, completing her bag and colouring in her wishes on the moon.

Sheet 2

Look! Brown Rabbit is playing his guitar . . . he is making such beautiful music. But where is Little Rabbit? He misses her! Draw Little Rabbit dancing to Brown Rabbit's tune and fill the page with colourful leaves for the rabbits to dance in happily together.
